

About Paramedical

Paramedical courses are job-oriented training courses in the field of medicine. They are different from MBBS, as it focuses on supporting medical health services.

- Paramedical courses can be pursued right after class 10 or class 12, takes a shorter time than conventional Medical Courses like MBBS to complete and has immense career options.
- Diploma in Physiotherapy, Diploma in Medical Radiography Technology, Diploma in Dental Lab Technician, and alike are popular paramedical courses after 10th that take only around 2 years to complete and offers decent salary packages.
- DMLT Course, BPT, BSc Nursing are the most pursued paramedical courses after 12th as they are known to offer the highest salary.
- The admission process for every paramedical course is different, some are based on the merit of class 12 (provided they have secured 50% marks with biology, physics, and chemistry as the core subjects), while some Paramedical Colleges conduct entrance tests.
- Some colleges and states (e.g. Maharashtra) consider NEET scores for admission in various paramedical courses such as BOT, BSc Medical Lab Technology, BSc Radiography, etc.

In contrast to the typical MBBS degree, paramedical courses are profession-oriented medical training courses that enable students to develop a career in the medical industry in a short amount of time and at a low cost. Candidates can enter the medical industry through paramedical courses in areas such as medical emergency, aid, and diagnostics.

Numerous jobs become available following paramedical education. And there are numerous options for graduation, postgraduate, diploma, and certificate courses ranging in duration from six months to three years. After Class 10, students may enrol in a paramedical course. Numerous institutions and universities throughout the country provide paramedical education.

In India, Paramedical Courses are academic programmes that emphasise on job placement. Numerous medical certificate and diploma degrees in the paramedic stream are available in India after completing Class 10 and Class 12 from a variety of top-ranking universities.
