

## Facilities

The department provides two specializations in Physics namely- **Nuclear & Particle Physics and Condensed Matter Physics**. State of laboratories are developed in both the areas of physics. Students are allowed to have free access to the laboratory for their project works and even to have add-on lab experience. Each specialization can accommodate around 20-30 students comfortably.

Library is richly racked with enough recommended Text / Reference books and journals; we add new titles and editions on regular basis. Students will utilize high speed Broadband Internet connection with Wi-Fi facility.

Rani Channamma University, Belagavi has granted the status of Research Centre in Physics to Basaveshwar Science College which is established in 2015 and named as Bharath Ratna Prof.C N R Rao Research Centre and it was inaugurated by the great Bharath Ratna awardee Prof.C N R Rao. At present we have research facility related to Dielectric studies, dielectric relaxation studies, ultrasonic studies, X-band microwave studies, etc. Faculty of the department is producing research publications and participates in seminars and conferences almost on regular basis.
